

EMPLOYMENT OPPORTUNITIES IN PUBLIC HEALTH

FHI 360 is an international non-governmental organization that, in Vietnam, promotes the health and well-being of the Vietnamese people, particularly vulnerable and marginalized populations. It works with the Vietnam Ministry of Health and other national bodies, as well as provincial and district-level health services, to achieve project aims. FHI 360 is currently implementing programs to address HIV and TB prevention, testing, and treatment; COVID-19; anti-microbial resistance; health system strengthening; maternal and child health and nutrition; and diagnostic and laboratory services.

The Meeting Targets and Maintaining Epidemic Control (EpiC) is a global project focused on HIV and global health security with funding from the United States Government. EpiC is seeking a qualified and motivated Vietnamese candidate to temporarily serve as a **Technical Advisor, Sustainable Transition**, based in Hanoi or Ho Chi Minh City until September 30, 2025.

Main responsibilities:

- Serve as a senior technical focal point in dialogues with national stakeholders, including government agencies, civil society, and private sector partners, to promote policy innovations that enable sustainable HIV service delivery.
- Guide the design and roll-out of public-private partnership models, including the engagement of pharmacies and private providers in delivering biomedical prevention and related services.
- Contribute to the national roadmap for transitioning U.S. government-supported HIV programming to locally-led and financed platforms.
- Provide strategic and technical leadership to advance sustainable models for HIV prevention and care, with a focus on long-acting biomedical prevention.
- Lead the development, implementation, and evaluation of cost-sharing mechanisms (e.g., co-pay models) to expand access to daily and long-acting biomedical prevention, and reduce long-term dependence on donor financing.
- Collaborate with monitoring and evaluation teams to assess impact, track progress, and inform adaptive management of sustainability initiatives.
- Other duties as assigned.

Experience and abilities for the position:

- Advanced degree in finance, public administration, law, public health, medicine, or relevant field.
- Minimum of ten years' experience in public health, health financing, HIV program design, or biomedical service delivery, including senior technical advisory or leadership roles.
- Demonstrated expertise in health systems strengthening, policy development, or financing strategies to support sustainable health programming.
- Experience working with international NGOs and the Government of Vietnam to improve health outcomes. Experience in health finance is required, and experience in HIV is an advantage.
- Experience working on U.S. Government-funded projects.
- Well-developed communication skills in Vietnamese and English.
- Proficiency in MS Office package (Word, Excel, and PowerPoint, etc.).
- Ability to travel as necessary.

FHI 360 offers competitive compensation and excellent benefits.

Interested candidates are invited to visit FHI 360's career page at <https://www.fhi360.org/careers> and apply for the position ONLINE by **August 8, 2025**. Selection and interviews will be conducted on a rolling basis, and candidates are encouraged to apply as soon as possible.

Only shortlisted candidates will be contacted for interviews.
