

EMPLOYMENT OPPORTUNITIES IN PUBLIC HEALTH

FHI 360 is an international non-governmental organization that, in Vietnam, promotes the health and well-being of the Vietnamese people, particularly vulnerable and marginalized populations. It works with the Vietnam Ministry of Health and other national bodies, as well as provincial and district-level health services, to achieve project aims. FHI 360 is currently implementing programs to address HIV and TB prevention, testing, and treatment; COVID-19; anti-microbial resistance; health system strengthening; maternal and child health and nutrition; and diagnostic and laboratory services.

The Meeting Targets and Maintaining Epidemic Control (EpiC) is a global project focused on HIV and global health security using funding from the United States Government. EpiC is seeking a qualified and motivated Vietnamese candidate to temporarily serve as a **Technical Advisor, Supply Chain**, based in Hanoi or Ho Chi Minh City until September 30, 2025.

Main responsibilities:

- Provide technical support and oversight to strengthen the HIV-related supply chain, with a focus on timely and effective forecasting, procurement, and distribution to ensure uninterrupted drug stock and commodity supply.
- Support provincial and facility-level teams in implementing and maintaining systems to monitor stock levels, consumption data, and supply forecasts.
- Ensure the incorporation and refinement of financial and commodity tracking tools to improve visibility into supply chain performance and SHI reimbursements.
- Collaborate closely with Vietnam Social Security (VSS) at the national and sub-national levels to ensure timely reimbursement and smooth commodity flow to health facilities.
- Analyze supply chain and reimbursement data to identify gaps, delays, or risks, and coordinate with stakeholders to address issues.
- Co-lead training and mentoring to provincial staff on supply chain data use, stock management, and SHI reporting procedures.
- Contribute to documentation and reporting on supply chain system improvements and lessons learned for dissemination and scale-up.
- Other duties as assigned.

Experience and abilities for the position:

- Advanced degree in finance, public administration, law, public health, medicine, or relevant field.
- Minimum of ten years' experience in supply chain management, logistics, or health commodity procurement and distribution in Vietnam's health sector.
- Strong understanding of HIV program supply chains and the SHI system, particularly to drug stock and health commodity financing and reimbursement.
- Experience working with international NGOs and the Government of Vietnam to improve health outcomes. Experience in health finance is required, and experience in HIV is an advantage.
- Experience working on U.S. Government-funded projects.
- Well-developed communication skills in Vietnamese and English.
- Proficiency in MS Office package (Word, Excel, and PowerPoint, etc.).
- Ability to travel as necessary.

FHI 360 offers competitive compensation and excellent benefits.

Interested candidates are invited to visit FHI 360's career page at <https://www.fhi360.org/careers> and apply for the position ONLINE by **August 8, 2025**. Selection and interviews will be conducted on a rolling basis, and candidates are encouraged to apply as soon as possible.

Only shortlisted candidates will be contacted for interviews.
